## About This Game

Merging the award-winning, smash-hit, indie game The Escapists with the worldwide phenomenon that is The Walking Dead, comes The Escapists: The Walking Dead. In this unique game, recreated entirely in the charming 8-bit pixel art style of The Escapists, you play as Rick Grimes as he takes on hordes of walkers let loose upon the world.

Rick is in charge of a band of survivors featuring many of the original comic book cast, including Maggie, Hershel, Glenn and Michonne. Rick must secure the safety of the group by seeking out a safe escape route from each area, and manage several dangerous tasks to keep as many of the group alive as possible. The game faithfully matches the timeline of the comics, meaning Rick must first fight his way out of the Harrison Memorial Hospital, visit the Greene family farm before visiting destinations such as the Meriwether Correctional Facility and Woodbury.

Protect the living and escape the dead as you play through the award-winning comic's epic story.

This game is complete crap. I always loved walkind dead and the escapist the fact that they made this game is worrying and exiting if been playing it and its enjoyable and the fact that the ais die completly is good yet bad i relly like this game. I would have rather burned the money I spent on this game. Awesome Walking Dead Crossover!. If you are a fan of TWD , the game is fun but definitely not one of the best ...

---

DO NOT waste your money on this game! I was stupid enough to buy this game the day it came out because I enjoyed playing escapists and i'm a fan of the walking dead but this game is EXTREMELY random in it's time line!

First, you start at the hospital in the beginning of the chapter "days gone by", THEN your already at the farm, THEN your already at the jail! I mean come on!

Also the game tried too much to be like escapists and not enough walking dead. I'm wondering why Rick has to do tedious chores in a zombie apocalypse. like not washing peoples underwear is going to cause zombies to start showing up. I like the way they replaced the heat meter with a zombie meter but it only goes up when you don't do chores, maybe if the chores were acualy relevant to the situation, like "patch the holes in a fence" or "scavenge around the map for ammo and supplies" but no it's wash clothes and garden...

I also hate the fighting mechanics, it's IMPOSSIBLE to fight a zombie one on one, even if you have a weapon its so hard to attack, the fighting style is neither escapists or walking dead I know because all you had to do in escapists is click and it goes into auto fight mode, And in the television series i've seen Andrea take down a zombie with a screw driver and Glen with his hands tied behind his back in one episode, why can they handle zombies like that in the game?!

I did rather enjoy the idea of collectible comics hidden on every stage but they had to ruin even THAT by making you unable to read them! WHATS THE POINT OF OWNING COMICS YOU CAN'T READ!? If you were upset with how long this review was it's not my fault this game is so broken.... If you ever decide to play a bloody crap game, this is the game for you. The creator of this faul game must be demented! The game is impossible to complete because of the overload of zombies and its a rip off.. it's a game like the escapist but you don't lose any of your items and there are no cellsschrec or how do you say it and it not like i need to find a way out no the game show you what you need to do and you have a story i u rate dis 4,7 because you spend so much time on the ultimate location. Great Game // Recommened Getting It If You Want A cheap enjoyable game 4/5 Stars. ITS GOOD yep im real described. This is a great game which brings the features of The Escapists to the Walking Dead. It's a lot of fun and features a variety of levels for you solve/ escape.. I did my chores, ate with my family, and then I exited the game.. I LOVE THIS GAME!!!!!!!!!!!!!!

One of the biggest events in the gaming calendar, [The Game Awards](http://thegameawards.com)[thegameawards.com], is fast approaching and we're extremely proud to see that not just one but TWO Team17 releases have been nominated for awards this year!

First up, chaotic co-op cooking game [Overcooked! 2](#) has been nominated for Best Family Game, while pinball-Metroidvania [Yoku's Island Express](#) is up for Best Debut Indie Game!

---

It means so much to the hard-working people at the Team17 studio, as well as our Games Label partners at Ghost Town Games and Villa Gorilla to be recognised in these categories, but we'd be over the moon if they won. Maybe we're biased, but we think they deserve it!

**How you can help!**

The Game Awards winners are decided by a mix of independent judges and fan votes, and in the case of Best Debut Indie Game – in which Yoku's Island Express is running – the category is 100% decided by fans.

We want to spread the word about these two great games and encourage more people to play them, and we can't do it without you! So if you've played either of these gems and would like to help out then please [head to The Game Awards website and cast your vote](#)[thegameawards.com]!

Please note that it is possible to vote once per 24 hours (if you're feeling super passionate about the awards) and doing so will increase the chances that your game of choice wins. So too will taking advantage of the option to share your choice to social media when prompted to do so.
